

Petitioner, Albemarle Corporation is the owner of 100 percent interest and title in the instant re-issue application (based on U.S. Patent No. 4,912,155) and U.S. Patent No. 4,867,907. Petitioner hereby disclaims, except as provided below, the terminal part of any patent granted on the above-identified application, which would extend beyond the expiration date of U.S. Patent No.4,867,907 and hereby agrees that any patent so granted on the above-

identified application shall be enforceable only for and during such period that the legal title to said patent shall be the same as legal title to Patent No. 4,867,907, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, his successors or assigns.

In making the above disclaimer, petitioner does not disclaim the terminal part of any patent granted on the instant application that would extend the expiration date of the full statutory term as defined in 35 U.S.C. 154 to 156 and 173 of any patent granted on the second application, as shortened by any terminal disclaimer filed prior to the patent grant, in the event that any such granted patent: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant.

The petitioner represents that it has reviewed the required evidentiary record of assignment and hereby certifies that, to the best of petitioner's knowledge and belief, title is in the assignee seeking to take the action.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the

SERIAL NO. 07/714,441

LESTER P.J. BURTON

United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

No additional fee is due. If there are any additional fees due in connection with the filing of this Amendment, the Commissioner is authorized to charge or credit any overpayment to Deposit Account No. 03-2775.
